Ashutosh Singh

+91-9206683401

Summary

Ashutosh is a healthcare technology professional with strong experience in the area of healthcare data warehouses for physician clinics and HL7 messaging. He has worked on several healthcare projects for leading provider organizations and healthcare ISVs, including ISVs in the medical imaging space.

Ashutosh's technology expertise of more than 9.5 years includes Microsoft .NET technologies, microservices, APIs, desktop applications, AWS Cloud, UiPath, Angular, SQL Server, and Docker. During his tenure at CitiusTech, he has successfully participated in various healthcare projects based on Microsoft's software development frameworks, AWS Cloud Server, GCP services, and database technologies.

Prior to joining CitiusTech, Ashutosh worked as a Developer Analyst-I with Wipro Limited.

Ashutosh has completed his bachelor's in computer science engineering from India. He has successfully passed the "AWS Certified Solutions Architect – Associate – C03" exam.

Healthcare Skills

Healthcare Standards	HL7 V2.X and HL7 CDA
Healthcare Workflows	Provider Workflows, Physician/Provider/ Medical Imaging Workflows

Technical Skills

Environments	Windows, MSDOS, AWS Cloud, Docker
Languages	Angular, jQuery, JavaScript, XML (Schemas, XSLT), AJAX, Bootstrap, HTML
Microsoft Technologies	ASP.NET, .Net Core, MVC 5, Web-API, Micro-Services, SignalR, C#, PowerShell Script, Typescript and ETL Packages, Terraform
Database	SQL Server 2015/2019/2020, DynamoDB, PostgreSQL and Redis
Servers	IIS, ECS Container
Development Tools	Visual Studio 2020/2022
Management Tools	Jira, Git, TFS
Cloud	AWS and GCP

Professional Experience

CitiusTech Healthcare Technologies Private Limited ***Duration: Jun 2022 – Till Now***

CitiusTech is a specialized provider of healthcare technology and business process services to healthcare technology companies, healthcare providers, managed care organizations, health plans, and disease management companies.

Project	**HHH.Financials** **Duration: Jul 2025 – Till Now**
Summary	HHH.Financials is health care tool to support claims. Its have AI assisted feature which will help clinic and hospital to make there process easy to fill the data in HER.

Main Technologies	ASP.Net Core, Angular, PostgreSQL, Redis, Terraform, Flux, playwright and GCP.
Responsibilities	▪ Understood and analyzed the project requirements ▪ Designed and obtained client sign-off for the workflow diagram and sequence diagram. ▪ Breakdown the task and created the story in Jira. ▪ Create the terraform script to create the infrastructure for project. ▪ Create Nuget package for dual authentication (custom / Okta) ▪ Implemented the security by creating the proper policy and role. ▪ Created the flux test to automate the backed testing. ▪ Created the playwright script to automate the frontend angular testing.

Project	Speech-To-Text (STT) **Duration: Jan 2023 – Jan 2025**
Summary	The STT server communicates over a WebSocket. This WebSocket channel will be used by the client to send the audio data to the server and receive the audio transcribed text back to client. The STT server internally uses **SignalR** to expose the WebSocket connectivity channel.
Main Technologies	ASP.NET, C#, .Net 6, Angular, AWS (DynamoDB, CloudWatch, Secret Manager, ECS and ECR) and SQL Server 2005, Git.
Responsibilities	▪ Understood client requirements for GCP Speech-to-text V1 and V2 beta service ▪ Developed the HLD document, Architect Diagram and Class Diagram ▪ Integrated SignalR and implemented GCP STT service with STT project ▪ Developed Terraform Script to create ECS Fargate Container ▪ Integrated SonarQube for quality check report

Project	**NXG Mobile D2D & Virtual Assistant** **Duration: Jun 2022 – Jan 2023**
Summary	Establish a Mobile App to Desktop Connectivity for streaming text and enabling point and click capability without any other Desktop App. It includes the conversion of audio to transcribed text in EHR Application, Desktop D2D application and notepad editor. It handles more than 42 windows shortcut commands via voice command like: select all, Copy select current paragraph etc.
Main Technologie	C#, .Net framework 4.6, Signal Client, Windows Form, WPF, PowerShell, Wix-2023 for (.MSI) package, AWS S3 bucket, CloudFrant distribution, Git.
Responsibilities	▪ Understood client requirements for allowed editor for point click ▪ Understood functionality of 42 voice command action which need to be work on all allowed editor ▪ Developed the HLD document, Architect Diagram and Class Diagram. ▪ Designed and coded the application

Wipro Limited ***Duration: May 2020 – Apr 2022***

Wipro Limited is an Indian multinational corporation that provides information technology, consultant and business process services.

Project	**Boeing LTC Letter OCR** **Duration: Feb 2021 – Dec 2021**
Summary	Developed a bot to extract data from PDF and image files using OCR technology. The extracted data is then called API to validated based on machine learning rules. Once validated, the bot generates a .csv report and sends it to the machine learning system.
Main Technologies	ASP.Net, UiPath, OCR, APIs, Excel
Responsibilities	▪ Understood and analyzed the project requirements ▪ Designed and obtained client sign-off for the SDD (System Design Document) ▪ Created the bot flow diagram document and utilized Jira to create stories and tasks for the team

Datamatics Global Services Limited ***Duration: May 2018 – May 2020***

Datamatics is a leading company specializing in digital technologies, operations, and experiences, empowering global enterprises to achieve enhanced productivity and customer experiences for a sustainable competitive edge.

Project	**HDFC Ergo DIA Chat Bot** **Duration: May 2018 – Jan 2019**
Summary	The HDFC Ergo DIA Chat Bot, an Amazon chat bot, is seamlessly integrated with an Asp.Net MVC application. Users can effortlessly access their policy details, submit claim requests, make inquiries, check quotations for new policies, and even purchase policies through simple and engaging chat interactions.
Main Technologies	Asp.Net MVC 5, HTML5, CSS, Bootstrap, Jquery, SQL Server 2015 Database
Responsibilities	▪ Developed and maintained the integration between the HDFC Ergo DIA Chat Bot and the Asp.Net MVC application, ensuring seamless functionality and user-friendly interactions ▪ Implemented features to facilitate the chat bot's ability to generate and provide policy quotations

Webstream Communication Pvt Ltd. ***Duration: Apr 2017 – May 2018***

Webstream is a global leader in Physical, Hybrid & Virtual Event Management Services, specializing in Live Webcasting and Videoconferencing Events across various sectors, from Healthcare to Manufacturing.

Chryzalis Educotors & Transformers Pvt. Ltd. ***Duration: Dec 2015 – Mar 2017***

Chrysalis is revolutionizing school education with its Think room program, challenging outdated practices in India's educational ecosystem. For 20 years, it has been a driving force in transforming K-12 education.

Educational Background

- B.Sc – Computer Science – Model College of Science and Commerce, Mumbai University, India, Year 2015

Certifications

- C03 – AWS Certified Solutions Architect – Associate, Year 2024
- MVP – Received award from C-Sharp corner community for helping community, Year 2023

Employment GAP

- I had a work gap from 19-Apr-2022 to 23-Jun-2022 (3 months) due to the Covid situation, during which I took a break to care for my parents.
